Do you have specific suggestions for improving the administration of the office for which you are a candidate?

My suggestion for improving the administration of legislative offices would be to create more compact legislative districts that better align school districts and municipalities resulting in greater focus and common interests. This would also reduce the need for multiple district offices and increase the accessibility of the Representative to their constituencies. I have introduced HB 1835 to reform the legislative redistricting process to address this challenge.

I hereby certify that my statements are true and correct and that this material may be used for publication in conjunction with the 2016 elections. By returning my information, I agree to the same.
